On-Site Systems Division
Wastewater Permits Program

RE: Training Courses

The Maryland Department of the Environment, Water & Science Administration, On-Site Systems Division provides training and certification for Best Available Technology Installation, Construction of Sand Mounds and Construction of At-Grade Mounds. Due to the recent concerns regarding the Coronavirus disease outbreak we are employing preventive methods to minimize potential exposure risk. Therefore we are cancelling the training courses listed below until further notice. Individuals currently registered for training will be placed on a waiting list and will be notified of training accordingly. For the future we will be researching alternative training procedures and will provide updates as necessary.

MDE At-Grade Construction Course, March 24, 2020
MDE At-Grade Construction Refresher Course, March 25, 2020
MDE BAT Installer Course, March 30, 2020
MDE Sand Mound Construction course, April 14, 2020
MDE Sand Mound Construction Refresher course, April 22, 2020

I would also encourage anyone to periodically visit MDE website <https://mde.maryland.gov/Pages/index.aspx> for information on environmental issues. The Onsite Systems Division has a link under the water category from the home page or use this link to go directly to the Onsite Systems page <https://mde.maryland.gov/programs/Water/BayRestorationFund/OnsiteDisposalSystems/Page/OnsiteSystems.aspx> for specific information pertaining to septic systems, training and other resources. Our division is available to assist you on other matters related to on-site sewage disposal and welcomes any comments or suggestions. Thank you for your cooperation in this matter.
